

Online Awareness Level Training

Mass Decontamination

A great deal of mass decontamination equipment has been purchased by WA counties and regions in recent years. Unfortunately, supporting training has not kept pace.

Often, highly specialized teams cannot respond in the first critical hours of an incident leaving the response to possibly unprepared first responders.

www.hsi.wa.gov

- ♦ The course applies to both CBRNE attacks, as well as natural disasters (such as avian flu) and industrial/ transportation accidents.
- ♦ The course addresses the aspects that you, a first responder, might be faced with when you are the first one to arrive at the scene. What will you find? What will you feel? What actions can you safely take?
- ♦ This course will help you be better prepared to understand the emotional stresses impacting responders and contaminated victims, procedures and approaches for decontamination and what factors need to be considered.
